SKILLS

Languages: C++, Python, JavaScript
Web Technologies: HTML, CSS, NodeJS, ReactJS
Tools/Platforms: TensorFlow, Git, Kaggle, Scikit-Learn, NumPy, Pandas, Docker, GitHub, Jira
Soft Skills: Adaptability, Team Player, Active Listener, Problem Solving

PROJECTS

AI Resume Analyzer | TypeScript, React JS, Puter.js, Tailwind CSS | [Link](#) Jul 2025 – Oct 2025

- Elevated skill–role alignment using AI, achieved 92% accuracy of the ATS score with stronger feedback quality.
- Redesigned the React–TypeScript–Tailwind interface during Jira tracked sprints, cutting load time by 38% and making task workflows faster and smoother.
- Streamlined backend deployment via a modular Puter.js architecture (iterations noted in Jira), and reduced deployment effort by 50% and enabled scalable PDF processing.

Sentiment Analysis using Neural Networks | Python, TensorFlow, React JS, Kaggle | [Link](#) Feb 2025 – Jun 2025

- Pursued higher sentiment accuracy, tuned GloVe + DNN pipeline, delivered smooth streaming output.
- Focused on richer text interpretation, refined preprocessing and embeddings, and yielded steadier model predictions.
- Ensured real-time user responsiveness, built an optimized React interface, and reached 85% validation accuracy.

Competitive Programming Bank | JavaScript, Python, Supabase | [Link](#) Jan 2024 – Aug 2024

- Advanced problem-archival capability, achieving sub-second retrieval for several stored algorithmic challenges.
- Automated Python workflows to reinforce solution reliability, delivering real-time performance validation across 20+ test cases per submission.
- Developed a responsive interface to increase user interaction speed, reducing page latency by 30% for fluid code entry and navigation.

TRAINING

Programming Pathshala | Lovely Professional University | [Link](#) Jun 2025 – Jul 2025

- Attained fluency in data structures, mastering constructs like graph topologies and dynamic-state formulations.
- Collaborated to build algorithmic prototypes, applying classroom concepts to reinforce practical understanding.
- Cultivated a competitive-programming portfolio, resolving 300+ problems across varied paradigms in timed contests.

CERTIFICATES

- | | |
|---|----------------------|
| • Python, Pandas and Data Visualization – Kaggle | Oct 2025 – Dec 2025 |
| • Problem Solving Certificate – HackerRank | May 2024 – Aug 2024 |
| • The Complete Python Pro Bootcamp for 2023 – Udemy | Sept 2023 – Jan 2024 |
| • Responsive Web Design - freeCodeCamp | Aug 2023 – Sept 2023 |

ACHIEVEMENTS

- Completed 160 consecutive days of coding challenge under #gfg160, building strong consistency in problem solving.
- Ranked 338th in Leetcode Weekly Contest 462 among 35k+ participants
- Participated in 70+ Competitive Programming Contests. Codeforces Rating- 1214 and Leetcode Rating- 1948.

EDUCATION

Lovely Professional University

B. Tech in Computer Science and Engineering; CGPA: 9.27

Punjab, India

Aug 2023 – Present

Inspiration Public School

Intermediate; Percentage: 94.8%

Haldwani, Uttarakhand

Apr 2021 – Mar 2022

Army Public School

Matriculation; Percentage: 93.6%

Amritsar, Punjab

Apr 2018 – Mar 2019
